

ACTUARY OF THE FUTURE

(Vote for up to three candidates)

Daniel Clark

Tony Johnson

Joel Abassah-Manu

Daniel Clark, ASA, MAAA
Senior Actuarial Associate
Voya Financial
West Chester, PA

Professional Background

I have been with Voya Financial since 2015, working in a variety of roles in the life insurance industry, including annuity product development (design and implementation of equity indexed annuities), risk reporting (reporting and analysis of risk metrics for annuity products), new business risk (new business metrics, risk review of new products, and analysis of strategic initiatives), and life valuation (financial reporting and new accounting standard implementation). I received my ASA designation in 2016.

Society of Actuaries Experience (Section and committee memberships and participation)

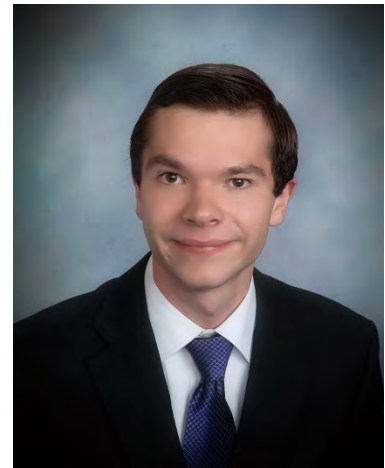

Member, Actuary of the Future Section

Other relevant volunteer experience (e.g., President of Home Owners Association, etc., if applicable):

Volunteer with Junior Achievement, teaching financial and business skills to high school students, and regularly work with current college students to give advice on networking, job searching, and succeeding after graduation.

Why are you interested in leading this section?

I hope to join the leadership of the Actuary of the Future Section to contribute to the industry's ability to adapt to changes in today's dynamic business environment and help position actuaries at all levels for success. I regularly work with high school and college students to teach the fundamentals of the business environment and strategies for future success, and hope to bring the same skill set to this section to aid all actuaries in navigating changes in technology and best practices that will impact our industry.

Tony Johnson, ASA, MAAA
Senior Manager
Deloitte Consulting
Chicago, IL

Professional Background

Tony possesses over 18 years of experience in the insurance industry, specializing in the areas of Financial Reporting, Business Process Improvement, Finance Transformation, and Finance Strategy. Tony's career includes 13 years of consulting and audit experience and six years of life insurance industry experience. Tony currently provides strategic consulting services to a range of financial services institutions. He leads Deloitte's Exponential Actuary work thread as part of Deloitte's Global Future of Work Initiative

Society of Actuaries Experience (Section and committee memberships and participation)

I have served as member of the following councils: Modeling, Education & Research, Financial Reporting, Taxation, Entrepreneurial & Innovation, and Actuary of the Future

Other Relevant Volunteer Experience

- Habitat for Humanity
- The Actuary Foundation: Mentor
- Positive Coaching Alliance – Chicago: Mentor

Why are you interested in leading this section?

I am very much dedicated to helping the actuarial community to actively respond to how the future of work will impact the actuary of the future. Through my efforts at Deloitte, I have helped my clients understand the drivers of change that will be brought about as a result of the future of work, the impact of those drivers on their organizations, and the steps organizations should take to prepare for the future. I want to share this knowledge with the broader actuarial community.

Joel Abassah-Manu, ASA, MAAA
Sr. Actuarial Associate
Prudential Financial
Harford, CT

Professional Background

An associate in the actuarial development program with rotations in Pension Risk Transfer Pricing, Variable Annuities Pricing, AAT, Forecasting, Financial Reporting, and Product Support. Interned at Lincoln Financial Group in Greensboro, NC working on Asset-Liability Management

Society of Actuaries Experience (Section and committee memberships and participation)

I have been a member of both the Investment Section and Actuary of the Future since early 2018.

Other Relevant Volunteer Experience

- Teaches statistics at a community college as an adjunct professor.
- Support with the Technical committee of International Association of Black Actuaries (IABA).
- Regularly presents to students at various colleges on the work of an actuary.

Why are you interested in leading this section?

I am excited about the future and the evolution of the actuary's career. I would like to be engaged with the council to learn, and positively contribute to the evolution where possible.
