(Vote for up to three candidates)

Qi (Tim) Sun

Jon Wu

Shirley Song

Abhinav Dendukuri

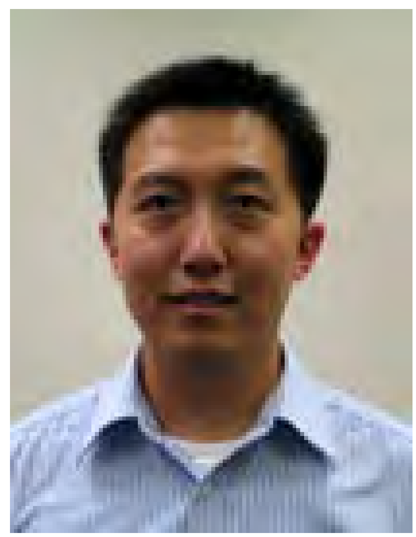
Alberto Abalo

Maïthé Luneau

Jie Ming

Qi (Tim) Sun, FSA

Head of Risk Management
Taiping Life Insurance (Hong Kong) Ltd.
Hong Kong



Professional Background
Qi is the head of risk management at Taiping Life (Hong Kong) Ltd. He has worked in the industry for over 18 years. Prior to Taiping Life, he spent 7 years with Prudential Plc's Asia regional office working on Solvency II implementation, product review, and actuarial country management for Prudential Plc's 10+ Asia business units. Before moving to Asia, he was a Director at SunLife Group Office in Toronto and has gained extensive experience on M&A, EC, ALM, and VA. Qi started his career in Mercer Canada, where he has developed valuable interpersonal skills and pension knowledge. Qi graduated from University of Waterloo, with a MMath in Actuarial Science.

Society of Actuaries Experience (Section and committee memberships and participation)

- Editor of *The Actuary* (2018 – Present)
- Editor and Co-Chief Editor of *International News* – International Section newsletter (2015-2017)
- Active member of International Section
- Active member of Joint Risk Management Section

Other Relevant Volunteer Experience
NA

Why are you interested in leading this section?
I have worked in different geographies and have had exposure to diverse cultures. I would like to help the International Section to continue developing a channel so that section members can exchange the latest actuarial development around the world, as well as keeping members adaptable in this rapidly changing world.

Jon Wu, FSA, MAAA, CERA

Faculty
Central Connecticut State University
New Britain, CT

Professional Background
Jon is currently teaching in the Accounting Department of the Business School in Central Connecticut State University. He is a Life and Health actuary with diverse experience in US, Latin America, Asia/Pacific, and UK/Ireland insurance markets specializing in Asset/Liability, Finance, Investment, Merger & Acquisition, Product Development, Risk Management, Solvency II Implementation, and Talent Development. Jon served as the in-country lead representative and home office liaison in Brazil for Aetna International and in China for MassMutual International and CFO for MassMutual International. He also sat on the corporate board of directors in China and Japan for MassMutual International, and served on several committees to set strategic direction, define corporate vision, and where warranted, develop turn-around plans. Jon was especially proud of his efforts to foster productive partnerships between local regulators in the Asia/Pacific region and industry associations, culminating in a mutually consistent understanding of a broad range of accounting principles (US GAAP, IFRS, and local GAAP), solvency standards (RBC, Solvency II, and local standards), retirement systems (pay as you go, Chilean style, and DB/DC), and value reporting methods (EV, EEV, and MCEV).

Society of Actuaries Experience (Section and committee memberships and participation)
- Introduction to CFE Module Exam Committee: 2018 – present
- AAA ERM/ORSA Committee: 2017 – present (completed Model Risk Management Practice Note in May 2019);
- AAA Solvency Committee: 2016 – present;
- SOA Part 6 Exam Committee: 1992 and 1995;
- SOA International Section: current member.

Other Relevant Volunteer Experience
- University of Connecticut’s Professional Master’s in Applied Financial Mathematics Program – served as one of the guest speakers on actuarial related subjects since 2014.
- Fluent in English and Mandarin; working knowledge of Portuguese, Spanish, and Japanese.

Why are you interested in leading this section?
By serving as an International Section Council Member, my past experience and familiarity with current best practices can be leveraged to provide section members with a global perspective of how today’s critical financial security challenges are tackled by actuaries around the world in consideration of country specific socio-economic, demographic and regulatory conditions.

♦ ♦ ♦ ♦

Shirley Song, FSA, MAAA
Consulting Actuary
Milliman
Seattle, WA

Professional Background
Shirley Song is a Consulting Actuary with Milliman. She joined the firm in 2008. Currently, Shirley is involved in a variety of projects that include outsourcing, mergers and acquisitions, and MG-ALFA®model implementations. She is also a lead in the US Practice Leaders Group for IFRS 17 and other International Financial Reporting Standard related activities.

Prior to joining the Seattle office, Shirley was a Consulting Actuary with Milliman's Financial Risk Management practice in Chicago. She was highly involved with the pricing, implementation, and management of variable annuity dynamic hedging programs for some of the largest International and U.S. insurance and reinsurance companies. In addition to her experience working with international clients (Japan, Bermuda, Germany, Italy based), she frequently coordinated with the capital market teams around the globe on risk management performance and derivatives execution.

Shirley also worked at large insurance, banking, and other consulting firms in Canada.
Shirley is an alumnus of the University of Waterloo, majoring in Actuarial Science and Finance Option (Co-op).

Society of Actuaries Experience (Section and committee memberships and participation)
- *The Future Actuary* Editorial Board Member, Society of Actuaries *since 2006*
    - Assisted the board with planning and publishing activities for *The Future Actuary*
    - Published articles frequently on *The Future Actuary*
    - Speaker, IFRS 17 ALM, CIA Annual Meeting

- Quantitative Finance and Investment Examination Writer, Society of Actuaries *since 2012*
- Quantitative Finance and Investment Examination Grader, Society of Actuaries *since 2012*

- Member Recognition, 5 consecutive years of volunteering

- Member: SOA International Section
- Member, SOA Investment Section
- Member, SOA Entrepreneurial & Innovation Section
- Member, SOA Financial Reporting Section
- Member, SOA Product Development Section

Other Relevant Volunteer Experience
- Speaker, SOA Candidate Connect, Chicago
- Tutor, Actuarial Foundation "Math Motivators" program in Seattle
- Tutor, Actuarial Foundation "Advancing Student Achievement" program in Chicago
- Delegate, Host and Speaker, ASNA (Actuarial Student National Association)
- China Synergy Program for Outstanding Youth, nominated by the President of University of Waterloo
- Conference Delegate, Harvard Project for Asian and International Relations
- Executive, University of Waterloo Actuarial Science Club

Other Activities:
- Diplôme de Cuisine, France trained culinary professional with experience working in a Michelin three-star restaurant in Paris
- Diplôme aux Vins

Why are you interested in leading this section?
In 2007, I gave the opening speech at the ASNA (Actuarial Student National Association) in Canada. The convention that year was titled "Defying Actuarial Assumptions." The idea was based on the fact that we were in an ever-changing industry that is growing, evolving, and adapting each and every day. Knowing that, the theme of the convention was to bring actuaries an opportunity to learn where all the knowledge they are gaining can one day take them. Fast forward 12 years, we are living in an even more exciting era, shaping the future of the actuarial profession with ever evolving topics such as IFRS 17, InsurTech, Blockchain, Big Data, Predictive Analytics and so many more. The world is getting bigger and smaller at the same time, and we need to learn to embrace these topics with an international lens. My goal of running for the International Section Council is to attempt to unite these developments and collaborations with efforts and ideas from actuaries across the globe.

I have lived in Asia, North America and Europe so far in my life. My international background, both personally and professionally, has fueled my decision to run for the International Section Council. I enjoy connecting with actuaries and professionals. In the past years, I have participated and volunteered in events in Canada, US, UK, France and Greater China. I believe my international experience and my enthusiasm will facilitate, grow, and advance SOA members' actuarial footprints internationally, and the group as a whole will benefit immensely as a result.

Thank you for your vote!

♦ ♦ ♦ ♦

Abhinav Dendukuri, FSA, CERA, MAAA

Vice President, Stable Value Market & Product Development
Prudential Financial
Iselin, NJ

Professional Background
Abhinav currently works as *VP, Stable Value Market & Product Development* for Prudential Financial. He currently focuses on the evolution, development, and implementation of strategic markets and products related to Stable Value Business.

His prior experiences include Actuarial roles supporting various businesses – Institutional Stable Value, Full-service Solutions, Pension Risk Transfer (PRT), and International Corporate Actuarial.

Abhinav graduated from University of Waterloo with a degree in Mathematics in 2010. He is currently pursuing a Part-time M.B.A from Kellogg School of Management (Northwestern University) with concentrations in Strategy & Marketing.

Abhinav is a Fellow of Society of Actuaries (FSA). He lives in NJ with his wife and dog. All three of them enjoy hiking but only one of them particularly enjoys chasing deer.

Society of Actuaries Experience (Section and committee memberships and participation)
Member – Actuary of the Future, International, Product Development, and Retirement

Other Relevant Volunteer Experience
- International Association of Black Actuaries (IABA) – Member & Volunteer
- Kellogg School of Management – Student Ambassador for University & Member of Tech & Marketing Clubs
- Prudential Actuarial Leadership Development Program – Council Member & Advisor to 5 associates

Why are you interested in leading this section?
- Leverage the platform to present our industry stories from worldwide. When I joined Prudential International Corporate Actuarial department in 2010, I had the privilege of working with international actuaries from

Japan, Korea, Taiwan, Italy, Poland and Brazil and I learned a great deal about the insurance practice in each of these countries. I hope to leverage the international section's platform to provide a forum for sharing stores about how our one industry has evolved in numerous ways or the various challenges our industry faces worldwide.

- Collaborate across SOA's councils to pave a brighter future for actuaries worldwide. It is not hard to imagine that one day a boundaryless actuarial workforce could be supporting worldwide insurance organizations. By collaborating with other SOA councils such as Smaller Insurance Company or Actuary of the Future, I believe there is an opportunity to make our Actuarial world feel more connected.

♦ ♦ ♦ ♦

Alberto Abalo, FSA, MAAA, CERA

Chief Actuary, Southern Europe and Latin America
Munich Re
Madrid, Spain

Professional Background

I currently serve as Chief Actuary of Munich Re's Life and Health HUB in Madrid, supporting new business initiatives across Southern Europe and Latin America. In addition to traditional reinsurance, my team specializes in product development, data analytics, and financial reinsurance.

Prior to moving to Europe in May 2018, I served as the Appointed Actuary for the Munich American Reassurance Company in the United States.

Before joining Munich Re, I was a founding Principal of the US Life actuarial consulting practice of Oliver Wyman. In that role I advised clients in matters related to product development, M&A due diligence, principle-based reserves, and financially motivated reinsurance.

Society of Actuaries Experience (Section and committee memberships and participation)

I served on the Predictive Analytics and Futurism Section Council from 2011 - 2014 (serving as Chair in 2014). In that role, my top priority was increasing the visibility of the section through webcasts and an increase in the number of relevant sessions sponsored at SOA events.

I also served as a member of the Individual Life and Annuity exam committee from 2011 – 2012 (and am proud to mention that a question I wrote was featured in an actual exam!).

Most recently, I was a member of the Accelerated Underwriting & VM-20 Practice Work Group.

Other Relevant Volunteer Experience

My wife and I co-chaired the Parent Education and Involvement Committee at our daughters' cooperative preschool.

Why are you interested in leading this section?

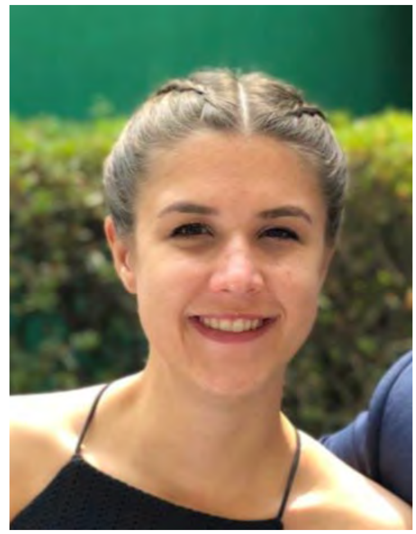
In the past year I have directly benefited from the respect that actuaries outside of the United States hold for the SOA's credentials. I have applied the knowledge underlying these credentials in many different contexts and have seen the similarities and differences between the established practices of the SOA and those of other organizations.

These experiences have inspired me to pursue membership in the section council. If elected, I would strive to be a bridge between the SOA and local actuarial organizations throughout Europe and Latin America, ultimately increasing members' understanding of what it means to be an actuary in other parts of the world and identifying commonalities in our professional responsibility to the public and our passion for quantifying risk.

♦ ♦ ♦ ♦

Maïthé Luneau, ASA

Senior L&H Transaction Actuary
Swiss Re
Mexico City, Mexico



Professional Background

I got the opportunity to expand my actuarial experience in pricing, focusing particularly on developing solutions that reduce the protection gap in Latin America through a 3-year international assignment in Mexico City. My main areas of expertise are Large Transactions and evaluating capital solutions for our clients all over Latin America. After the assignment, I decided to stay in Mexico City.

In previous years, after acting as Project Manager for an internal system conversion, I took on the responsibility for the US Disability Income valuation and financial reporting from the Swiss Re Canada's office. I lead the transfer of the quarterly valuation production and analysis of STAT/GAAP/Zurich reserves to our team in Bangalore.

Society of Actuaries Experience (Section and committee memberships and participation)

I am an Associate of the Society of Actuary and actively continuing my professional development.

Other Relevant Volunteer Experience

Since joining Swiss Re, I have been participating in various committees and initiatives (Group & Health initiatives, Canada Employee advisory committee, Mexico Actuarial & Analytics community, Participants in the Innovation Days at Swiss Re).

Why are you interested in leading this section?

The Society of Actuary has a very little footprint in Latin America. When I first moved here I realized there are many actuaries graduating each year who take non-actuarial roles.

I worked on an Actuarial Development Program for Latin America to encourage the young actuaries to pursue their exams with the objective of differentiating themselves and allowing them to reach their full potential and get the actuarial job they are targeting.

By being part of the International section, I want to make Latin America more present in the community. I also want to raise awareness and educate actuaries as to what the Society of Actuaries brings to the Mexican and Latin America actuarial community.

♦ ♦ ♦ ♦

Jie Ming, FSA, MAAA

Manager
Deloitte Consulting LLP
Minneapolis, MN

Professional Background

Jie is a Manager in the Actuarial & Insurance Solutions practice within Deloitte Consulting LLP. Jie has over seven years of experience in life insurance industry, with three years at Allianz Life and four years at Deloitte. He specializes in emerging regulatory analysis (ICS, ORSA, IFRS 17, and FASB Targeted Improvement), model governance, inforce management, and financial reporting with focus on audit and actuarial production management under IFRS, US GAAP, and US statutory. His clients range across mutual and public companies, and US domestic and international businesses.

Society of Actuaries Experience (Section and committee memberships and participation)

Jie volunteers for the SOA as a university support actuary.

Other Relevant Volunteer Experience

NA

Why are you interested in leading this section?

Jie has significant experience in emerging regulatory analysis for changes both domestically (ORSA and FASB targeted improvement) and internationally (ICS and IFRS 17); in fact, he has advised both U.S. and European insurers in ICS field testing for a number of years, and recently presented at the 2019 Life & Annuity Symposium on IFRS 17 Implementation Journey.

He believes in the importance of equipping actuaries with an international lens in this ever-globalized world, amid challenges arising from differences in regulatory environments across geographical regions. Outside the professional work, he himself brings international perspective as a Chinese native working now in the US, and the experience naturally rings the bell with the mission of the International section.

Considering his professional experience plus personal interest, Jie hopes to lead the International section with more value-add for its section members.
